

Tenure-Track Faculty
Louisiana Tech University

Pending budgetary approval, the College of Engineering and Science at Louisiana Tech University anticipates filling at least one tenure track position that can be considered for joint appointment between the Programs of Industrial Engineering and Mathematics/Statistics, commencing September 1, 2018. A Ph.D. in Industrial Engineering, Statistics, Mathematics or a related field by the time of appointment as well as excellent teaching and research credentials are required. Rank and salary will be commensurate with qualifications.

The Programs of Industrial Engineering and Mathematics/Statistics are housed in the College of Engineering and Science, whose vision is to be a world leader in integrating engineering and science in education and research. The College is experiencing significant growth and is undertaking an aggressive faculty recruiting campaign to attract culturally and academically diverse faculty of the highest caliber. To build a diverse workforce the College encourages applications from individuals with disabilities, minorities, veterans and women. The University is a doctoral granting public institution that enrolls over 12,000 students from 48 states and 68 foreign countries.

The Program of Industrial Engineering offers a B.S., M.S. in Engineering – Industrial Engineering concentration, and M.S. in Engineering and Technology Management. The Industrial Engineering Program also contributes to a wide range of Ph.D. programs offered by the College: <http://coes.latech.edu/grad-programs/>. The Program of Mathematics/Statistics offers a B.S. and a M.S. degree and is a major participant in the interdisciplinary Ph.D. program in Computational Analysis and Modeling.

The successful candidate is expected to teach statistics and/or industrial engineering courses in the College's interdisciplinary undergraduate and graduate curricula and to establish an externally-funded research program while working in interdisciplinary research teams. Most research activity in the College of Engineering and Science is focused around multidisciplinary research centers. Candidates whose research areas align with the missions of our research centers are strongly encouraged to apply. Center information is available at <http://coes.latech.edu/research-centers/>

Review of applications will begin immediately and continue until the position is filled.

Submit the following items online at mathjobs.org (job id 11876):

- Letter of Interest
- Curriculum Vitae
- Teaching Statement
- Research Statement
- Names and contact information for four references, one of whom to address teaching qualifications.
