Louisiana Tech University invites applications for a tenure-track faculty positions in physics. Of particular interest are individuals with experimental research background in high energy physics.

Louisiana Tech offers B.S. and M.S. in physics, and Ph.D. degrees in Engineering and Computational Analysis & Modeling, both of which include physics research areas. The high energy physics group at Louisiana Tech participates in the D0 experiment at Fermilab and in R&D for the future International Linear Collider. The successful candidates are expected to actively participate in a multidisciplinary, team-oriented educational and research environment. See our website at www.latech.edu/COESPositions.edu.

Qualifications include the ability to initiate, build and sustain a strong externally funded research program, the ability to supervise masters and doctoral students, excellent written and oral communication skills, strong teaching skills, a commitment to high quality professional service and active participation in college responsibilities. Candidates must have an earned doctorate in physics or a closely related field. Review of applications and nominations will continue until suitable candidates are identified, with a projected start date of September 1, 2006. Louisiana Tech University is an EEO/AA employer. Candidates that enhance the diversity of the university are encouraged to apply.

Send applications (including CV, contact information for four references, teaching philosophy statement, and statement of research interests and goals) to:
